

## VARIABLE ANNUITY ACCOUNT C

### Multiple Sponsored Retirement Options ING Life Insurance and Annuity Company

#### Supplement Dated August 30, 2002 to Prospectus and Contract Prospectus Summary dated May 1, 2002 as Supplemented June 1, 2002 and May 8, 2002 with respect to the Prospectus

The following provisions apply to participants who enroll in voluntary 403(b) annuity contracts for employees of K-12 public schools in Texas on and after June 1, 2002 (Texas K-12 Contracts). These contracts meet the requirements established by the Teachers Retirement System of Texas in support of Senate Bill 273.

The information in this supplement amends certain information contained in the Prospectus and Contract Prospectus Summary each dated May 1, 2002. You should read this supplement along with the Prospectus and Contract Prospectus Summary.

### FEES APPLICABLE TO TEXAS K-12 CONTRACTS

#### *Transaction Fees*

**Early Withdrawal Charge.**<sup>1</sup> (As a percentage of the amount withdrawn.)

<b>Early Withdrawal Schedule</b>	
<u>Account Years Completed</u>	<u>Early Withdrawal Charge</u>
Fewer than 1	7.0%
1 or more but fewer than 2	6.5%
2 or more but fewer than 3	6.0%
3 or more but fewer than 4	5.5%
4 or more but fewer than 5	5.0%
5 or more but fewer than 6	4.5%
6 or more but fewer than 7	4.0%
7 or more but fewer than 8	3.5%
8 or more but fewer than 9	3.0%
9 or more but fewer than 10	2.0%
10 or more	0.0%

**Annual Maintenance Fee** ..... \$0.00

#### *Fees Deducted From the Subaccounts*

(Daily deductions equal to the given percentage on an annual basis)

**Mortality and Expense Risk Charge** ..... 1.25%

**Administrative Expense Charge**<sup>2</sup> ..... 0.00 - 0.25%

**Total Separate Account Expenses** ..... 1.25 - 1.50%

<sup>1</sup> These fees may be waived in certain circumstances. See "Fees" in the prospectus or "Charges and Deductions" in the contract prospectus summary.

<sup>2</sup> We currently do not impose this charge, however, we reserve the right to charge up to 0.25% annually.

#### *Fees Deducted by the Funds*

See the Fee Table in the prospectus or contract prospectus summary for a list of fees deducted by the funds. Only the funds listed in the "Hypothetical Examples" below are offered under Texas K-12 Contracts.

## Hypothetical Examples for Texas K-12 Contracts

**Account Fees Incurred Over Time.** The following hypothetical examples show the fees paid over time if \$1,000 is invested in a subaccount, assuming a 5% annual return on the investment. For the purpose of these examples, we deducted the mortality and expense risk charge of 1.25% annually and the maximum administrative expense charge of 0.25% annually, which we have the right to charge but we are not currently charging. The total fund expenses are those shown in the column "Total Net Fund Annual Expenses" in the Fund Expense Table, assuming that any applicable fee waivers or reimbursements would apply during all periods shown.

- ▷ These examples are purely hypothetical.
- ▷ They should not be considered a representation of past or future fees or expected returns.
- ▷ Actual fees and/or returns may be more or less than those shown in these examples.

### **EXAMPLE A**

**If you withdraw your entire account value at the end of the periods shown, you would pay the following fees, including any applicable early withdrawal charge assessed:**

### **EXAMPLE B**

**If you leave your entire account value invested or if you select an income phase payment option at the end of the periods shown, you would pay the following fees (no early withdrawal charge is reflected):\***

\* Example B will not apply if during the income phase a nonlifetime payment option is elected with variable payments and a lump-sum payment is requested within a certain number of years as specified in the contract. The number of years varies by contract; see your contract or certificate for the exact number of years. In that case, the lump-sum payment is treated as a withdrawal during the accumulation phase and may be subject to an early withdrawal charge. (Refer to Example A.)

## **VARIABLE ANNUITY ACCOUNT C**

### **Multiple Sponsored Retirement Options ING Life Insurance and Annuity Company**

#### **Supplement Dated August 30, 2002 to Statement of Additional Information dated May 1, 2002**

**The following applies to participants who enroll in voluntary 403(b) annuity contracts for employees of K-12 public schools in Texas on and after June 1, 2002 (Texas K-12 Contracts). These contracts meet the requirements established by the Teachers Retirement System of Texas in support of Senate Bill 273.**

The information in this supplement amends certain information contained in the Statement of Additional Information dated May 1, 2002. You should read this supplement along with the Statement of Additional Information.

#### **Average Annual Total Return Quotations - Standardized and Non-Standardized for Texas K-12 Contracts**

The tables below reflect the average annual standardized and non-standardized total return quotation figures for the funds available under the Texas K-12 Contracts for the periods ended December 31, 2001 for the subaccounts under the contracts. The standardized returns (Table A) assume a mortality and expense risk charge of 1.25% and an early withdrawal charge of 7% grading down to 0% after 10 years. The non-standardized returns (Table B) assume the same mortality and expense risk charge but do not include the early withdrawal charges.

For the ING MFS Capital Opportunities Portfolio (Initial Class), ING MFS Emerging Equities Portfolio (Initial Class), ING MFS Research Portfolio (Initial Class), ING Scudder International Growth Portfolio (Initial Class) and ING T. Rowe Price Growth Equity Portfolio (Initial Class) subaccounts, two sets of performance returns are shown for each subaccount: one showing performance based solely on the performance of the ING Partners, Inc. (IPI) portfolio from November 28, 1997, the date the fund commenced operations; and one quotation based on (a) performance through November 26, 1997 of the fund it replaced under many contracts and; (b) after November 26, 1997, based on the performance of the IPI portfolio.

TABLE A (Continued)

SUBACCOUNT	STANDARDIZED				Date Contributions First Received Under the Separate Account
	1 Year	5 Year	10 Year	Since Inception*	
Pioneer Equity Income VCT Portfolio (Class I Shares)				(8.90%)	07/26/2001
Pioneer Fund VCT Portfolio (Class I Shares)				3.35%	09/27/2001
Pioneer Mid Cap Value VCT Portfolio (Class I Shares)				(5.33%)	08/09/2001

Please refer to the discussion preceding the tables for an explanation of the charges included and methodology used in calculating the standardized and non-standardized figures. These figures represent historical performance and should not be considered a projection of future performance.

\* Reflects performance from the date contributions were first received in the fund under the separate account.

- (1) These funds have been available through the separate account for more than ten years.
- (2) The current yield for the subaccount for the seven-day period ended December 31, 2001 (on an annualized basis) was 0.94%. Current yield more closely reflects current earnings than does total return. The current yield reflects the deduction of all charges under the contract that are deducted from the total return quotations shown above except the maximum 7% early withdrawal charge.
- (3) The fund first listed was replaced with the applicable ING Portfolio after the close of business on November 26, 1997. The performance shown is based on the performance of the replaced fund until November 26, 1997, and the performance of the applicable ING Portfolio after that date. The replaced fund may not have been available under all contracts. The "Date Contributions First Received Under the Separate Account" refers to the applicable date for the replaced fund. If no date is shown, contributions were first received in the replaced fund under the separate account more than ten years ago.

TABLE B

Please refer to the discussion preceding the tables for an explanation of the charges included and methodology used in calculating the standardized and non-standardized figures. These figures represent historical performance and should not be considered a projection of future performance.

\*\* Reflects performance from the fund's inception date.

- (1) These funds have been in operation for more than ten years.
- (2) The current yield for the subaccount for the seven-day period ended December 31, 2001 (on an annualized basis) was 0.94%. Current yield more closely reflects current earnings than does total return. The current yield reflects the deduction of all charges under the contract that are deducted from the total return quotations shown above. As in the table above, the maximum 7% early withdrawal charge is not reflected.
- (3) The fund first listed was replaced with the applicable ING Portfolio after the close of business on November 26, 1997. The performance shown is based on the performance of the replaced fund until November 26, 1997, and the performance of the applicable ING Portfolio after that date. The replaced fund may not have been available under all contracts. The "Fund Inception Date" refers to the applicable date for the replaced fund. If no date is shown, the replaced fund has been in operation for more than ten years.
- (4) The performance of the Service Shares prior to December 31, 1999 reflects the performance of a different class of Janus Aspen Series, restated based on the Service Shares estimated fees and expenses, ignoring any fee and expense limitations.
